ACCOUNTABILITY LAB PROGRAMMATIC INDICATORS (2023 – 2026)

As part of our translocal network's accountability to our broader community, we have formulated indicators around the changes we would like to see as a result of our interventions over the next 3 years. Recognizing that contexts differ greatly and that our work is in various stages of development across network labs, all targets are set per network lab to ensure that we set goals that are both measurable and relevant.

WHAT WE DO	THE CHANGE WE WILL MEASURE
1. Campaigns and Advocacy	Indicator 1.1 Individuals reached through AL campaigns via in-person engagement, and traditional and social media.
	Indicator 1.2: Increased engagement with powerholders around AL campaigns at the local, sub-national and national levels
	Indicator 1.3: Target audience with increased understanding of key themes covered in AL campaigns
2. Learning and Knowledge-Building	Indicator 2.1: Program participants have increased skills and knowledge related to integrity and accountability
	Indicator 2.2: Civil service reformers who are better equipped to push for positive change in their agencies as a result of AL interventions
	Indicator 2.3: AL teams have increased skills, knowledge and necessary resources to implement agile programming aligned with our Theory of Action
3. Building and Convening Coalitions	Indicator 3.1: Increased collaborative efforts among AL program participants and/or coalition members
	Indicator 3.2: Program participants and coalition members indicate an increase in their network and ability to influence governance processes
	Indicator 3.3: Increased amplification of voices of marginalized communities through coalitions
