

Sewerage Bursts in GlenView

Glen View residents are no strangers to burst sewerage pipes. Raw sewerage, has become a familiar threat.

CFAs surveyed 176 households across the Glenview area on sewerage bursts. 100% reported having had a sewerage pipe burst around their home which happen often or very often.

How often do sewerage bursts happen?

You can play a part in preventing sewerage blockages by

Avoid flushing down wipes, bandages, diapers, sanitary pads or other hygiene products

Avoid flushing down hard objects such as spoons or rags

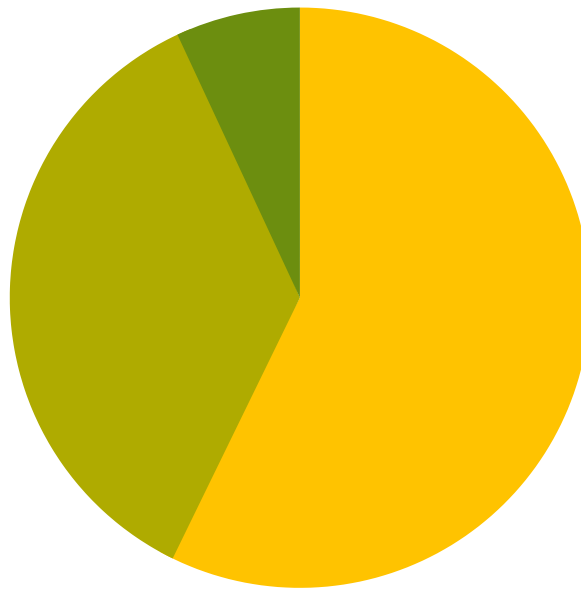

Avoid flushing down water with river sand after washing plates because the sand can clog drains

Sewerage Bursts in GlenView

How long did it take to get the burst mended?

More than 3 months
6.9%

More than a month
35.8%

Less than a month
57.2%

Some of those mends lasted less than a month, so the challenges of keeping pipes working are clearly considerable.

“
They came after a week from the date of complaint
”

“
They fixed after 6 days from the date of reporting.
”

“
They came after 4 days and fixed.
